

## Digital Map Products to Discuss How Progressive Governments Are Embracing Location Technology at the ICMA 99<sup>th</sup> Annual Conference

(Irvine, CA – September 18, 2013) Digital Map Products is excited to announce that it will be participating as both a presenter and an exhibitor at the 99<sup>th</sup> Annual ICMA Conference in Boston, Massachusetts. This conference, which will take place September 22<sup>nd</sup> – 25<sup>th</sup> 2013, gives local government leaders the opportunity to gather and share information and strategies around building and managing communities in today's complex environment.

Digital Map Products, a leading innovator of cloud-based spatial solutions for government, business and consumers, will be speaking at the conference on Monday, September 23<sup>rd</sup> from 9:45 – 10:45 a.m. Their Solutions Track session will address the innovative ways local governments are leveraging mapping to integrate data, heighten efficiency and deliver exceptional constituent service. Through case studies, Digital Map Products will show how mapping has been reinvented for the everyday user, the value of integrating and distributing your data with location, and tips for succeeding with agency-wide mapping.

Additionally, Digital Map Products will be at booth #438 in the Exhibition to showcase the company's government solutions including GovClarity™ and CommunityView™. GovClarity™ is a data integration and mapping platform that helps local government deliver mapping to everyone in their agency and unify their data in one system. CommunityView™ provides online mapping and mobile applications to publicly share local government information and engage in dialogues with constituents.
