

Digital Map Products CEO to Present at the 2013 Montgomery Technology Conference

(Irvine, CA – March 5, 2013) Digital Map Products, a leading provider of cloud-based mapping technology solutions, today announced that its CEO and Founder, Jim Skurzynski, will be presenting at the 2013 Montgomery Technology Conference, March 6th at 12:30 pm PST. The Montgomery Technology Conference brings together over 1,000 senior-level private equity and venture capital investors and corporate industry executives with high quality growth companies. The conference will take place March 6th and 7th, 2013 at the Fairmont Miramar Hotel & Bungalows in Santa Monica CA.

In his presentation, Digital Map Products' CEO and Founder, Jim Skurzynski will discuss the mainstreaming of spatial technology and the broad applications for using location in everyday business, government and consumer tasks. He will share how key Digital Map Products' customers have embraced this new breed of spatial technology to improve their efficiency and accelerate their decision making.

Digital Map Products is transforming the spatial technology industry by making mapping easy to implement and use, putting this powerful technology in the hands of end users. The company's solutions cover the spectrum of spatial needs from its turnkey Software-as-a-Service applications for Real Estate and Local Government, to its mapping development platform and decision ready location data for organizations building and extending their own applications.

"At Digital Map Products we're passionate about making spatial technology accessible to everyone," says Mr. Skurzynski. "We've only just begun to see the true potential of maps to integrate data, facilitate decision making, and provide a common reference point for collaboration."
