

Digital Map Products Continues Growth with New Southeastern Office Providing Local Government Solutions

(Irvine, CA – December 5th, 2013) Digital Map Products, a leading innovator of cloud-based spatial solutions for government, business and consumers, announces the expansion of its national presence in the Southeast region with the opening of a new office in Atlanta, Georgia. Headed by Eastern Region Manager Gary Steele, Digital Map Products' new Atlanta-based office will focus on providing data integration and mapping solutions for local government organizations.

To keep pace with demand in the Southeastern US, Digital Map Products' new office will enable the company to increase the depth of services provided to city and county agencies in the region. Steele will oversee the growth of activities and impact across the Southeastern US, in parallel with cultivating deeper relationships and engagement with municipalities. With a 20 year track record providing advanced spatial, remote sensing, and other technological solutions to Federal, State, and Local agencies, Steele brings a wealth of expertise in serving the unique needs of government organizations.

“Solidifying our local footprint in Atlanta allows us to develop stronger connections with current and prospective clients throughout the Southeastern United States. This is a significant and expanding market, and we are enthusiastic about establishing a more permanent presence.” said Jim Skurzynski, President & CEO of Digital Map Products. “With our innovative yet affordable location technology and data solutions, as well as our on-the-ground presence, we have a real opportunity to add value for local governments in the region.”

Digital Map Products' solutions empower local governments to simultaneously improve agency efficiency and heighten constituent engagement by leveraging location-based data and mapping technologies. GovClarity™, the pre-eminent data integration and visualization platform, enables inter-departmental data access, sharing and editing and streamlines decision-making to create efficiencies across the agency. CommunityView™ enables municipalities to publish interactive maps to their websites with agency, property and community information helpful to the public.

Digital Map Products' new Southeastern office augments the company's strong existing presence across the United States. To learn more about Digital Map Products and its local government solutions, please visit <http://www.digmap.com/campaigns/DMP-SoutheastOfficeOpening.html>
