

GovClarity® and
CommunityView®
Help the City of
Calabasas, California
Easily Research and
Manage Property
Data

Success Story
Calabasas, California

GOVERNMENT

PROBLEM

Researching property data was difficult and time consuming for City of Calabasas, California employees and residents.

SOLUTION

Implementing GovClarity and CommunityView provides the City of Calabasas with easy access to accurate property data, saving time and money for city employees and residents.

FEATURES

- Saves time: Instant access to property data, including zoning information, property tax, lot size, square footage, and much more
- Saves money: Buffer search can automatically generate hearing notices, saving hundreds of dollars for applicants
- Engaged citizens: Thanks to CommunityView, residents call to express their appreciation of how easily they can access property data

GovClarity and CommunityView Make it Easy for City Employees and Residents to Research Property Data

The Application provides city residents and employees with comprehensive, accurate property data

Needing an efficient way to access property data for city employees and residents. The City of Calabasas, California started using Digital Map Products 10+ years ago. Senior Planner Michael Klein appreciates the platform is user-friendly and that onboarding new features is always smooth.

“GovClarity and CommunityView make it simple to research property data and digitally deploy data layers and shapefiles to the public or other city departments. We also use Digital Map Products to easily create map displays that can be used for presentations or staff reports.”

“CommunityView helps us push property data out to the public, and we’ve gotten phone calls from residents happy about the accessibility of property information.”

“It’s like having our own in-house GIS team”

“Digital Map Products makes it easy to manage data because everything is in one place. We can integrate our data and shapefiles onto the platform and pair it with county information, helping every department get the information they need, including zoning, lot size, tax maps, square footage, owner information and more.”

For the City of Calabasas, Digital Map Products offers an all-in-one solution that not only meets their needs but also the needs of their constituents at a great value.
